(cc: Col.
Hansen)

4. Mr. John Kramer, who writes the U. S. Employees column in the Washington News, called to ask the status of our retroactive pay problem. I told him that we were submitting the question to the Comptroller General in the belief that we had authority to pay based on our general authorities. He asked if we planned any action in the event the Comptroller General ruled against payment. I said as yet no decision had been made in that connection.
